## Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

### Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

### Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO-TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmärka vid begäran.

### Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

### Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

### Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

## Maarten Van Severen, 1998

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** integral skin polyurethane foam. Shell with upholstered effect, self-supporting on a tubular steel frame. Flexible backrest with integrated leaf springs.

**Base/stackability:** back legs in tubular steel, front legs in aluminium profile, powder-coated or chrome-plated. Stacking and non-stacking versions. Up to 10 chairs can be stacked on the floor, up to 20 chairs on a stacking trolley. Fitted with plastic glides for carpet or felt glides for hard floors.

# Eames Plastic Chairs RE

Charles & Ray Eames, 1950

vitra.

DAR

DAW

All measurements are pursuant to EN 1335-1:2000.  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Note:** due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

**Options:** the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

## Eames Plastic Armchair DAR

**Base:** wire base with cross struts, chrome-plated or powder-coated finish. (DAR = Dining Height Armchair Rod Base)

**Outdoor use:** unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

## Eames Plastic Armchair DAW

**Base:** wooden base in various shades of maple or honey-toned ash, stained and lacquered finish. Steel rod cross struts in basic dark. (DAW = Dining Height Armchair Wood Base)

**Origin of wood:** ash (*Fraxinus excelsior*) and maple (*Acer platanoides*) from Western Europe and/or Poland.

Charles & Ray Eames, 1950

DAL

DAX

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

**Seat shell:** dyed-through, recycled polypropylene, 100% recyclable. All models are available with a seat cushion (screwed to the seat shell) or full upholstery. The fully upholstered version has moulded polyurethane foam padding covered in fabric, attached to the shell with a welted edge. Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Note:** due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

**Options:** the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

## Eames Plastic Armchair DAL

**Base:** La Fonda base in polished die-cast aluminium. (DAL = Dining Height Armchair La Fonda Base)

## Eames Plastic Armchair DAX

**Base:** four-legged tubular steel base, chrome-plated or powder-coated. (DAX = Dining Height Armchair X-Base)

**Outdoor use:** unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

Different shell and upholstery colours and various bases provide a multitude of possible combinations.

**Note:** due to the composition of the recycled material, the seat shell colours exhibit very subtle specks of pigment.

**Options:** the Eames Plastic Chair RE is available as a visitor chair, dining chair, rocking chair, swivel chair or in stacking versions and with ganging brackets for row seating. Beam-mounted shells are suited for use in waiting areas.

**Base:** tubular steel, chrome-plated or powder-coated, non-stackable. Ideal for use at counters and tables 110 to 120 cm in height.

**Outdoor use:** unupholstered version with powder-coated base suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.

HAL RE Armchair Wood

HAL RE Armchair Tube Stackable

HAL RE Armchair Studio

HAL RE Studio

HAL Ply Studio

All measurements are pursuant to EN 1335-1:2000  
More detailed information is found in the chapter 'Explanation of measurements'.

## HAL RE Armchair Wood

**Seat shell:** dyed-through recycled polypropylene, with optional seat cushion (screwed to the seat shell).

**Base:** non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

**Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland.

## HAL RE Armchair Tube Stackable

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** stackable four-legged tubular steel base, chrome-plated finish or powder-coated in basic dark. Up to 6 chairs can be stacked on the floor or on a stacking trolley. Chairs with seat cushions should not be stacked, since stacking could damage the upholstery.

**Note:** as stacking can cause scratches, we recommend the chrome version for this purpose.

## HAL RE Armchair Studio

**Seat shell:** dyed-through recycled polypropylene, with optional seat cushion (screwed to the seat shell).

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

## HAL RE Studio

**Seat shell:** dyed-through, recycled polypropylene.

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

## HAL Ply Studio

**Seat shell:** plywood (USA).

**Base:** five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

**Glides:** colour matched to the small attachment parts for the seat shell, choice of white (except HAL Wood and HAL Ply Wood) or deep black. All bases fitted with glides for carpet; felt glides optionally available for hard floors.

HAL RE Tube Stackable

HAL Ply Tube Stackable

HAL RE Tube Armrest

HAL RE Tube Writing Tablet

HAL Stacking dolly

All measurements are pursuant to EN 1335-1:2000  
 More detailed information is found in the chapter 'Explanation of measurements'.

## HAL Stacking Trolley

HAL Stacking Trolley is suitable for use with all stackable HAL models, with the exception of HAL Soft Tube stackable.

## HAL seat cover

The fabric covers for the seat shells of HAL and HAL Ply provide enhanced comfort. They are available in various colours and can be easily attached and removed.

**HAL seat cover:** 100% polyester/polyurethane; two reverse flaps fit over top of backrest and front of seat. Available in Plano fabric in predefined colours (see Price List supplement for upholstery materials). Additional colours in the Plano collection can be selected for orders of 6 or more seat covers.

## HAL row connector

The HAL row connector is a linking element in two sizes: 100 mm for a smaller and 180 mm for a larger distance between the chairs. The number clips of the linking elements for the .03 also match the new HAL linking element.

For the following HAL chairs, the linking elements can be used in both sizes:

- HAL RE Tube Stackable
- HAL Ply Tube Stackable
- HAL RE Tube Armrest

For the following HAL chairs, only the linking element of 180 mm can be used:

- HAL RE Armchair Tube Stackable
- HAL RE Tube Writing Tablet
