CONCEPT

SENAB

Färgmarkeringar och/eller symboler för hållbara alternativ i prislistan:

Mörkgrön markering eller symbol

Miljömärkt produkt – Möbler där hela den sammansatta varan har en typ 1 miljömärkning enligt ISO 14024 med Svanen, Möbelfakta, EU Ecolabel eller annan likvärdig märkning.

Ljusgrön markering eller symbol

Hållbarhetsmärkt produkt eller beståndsdel – Möbler där hela eller delar av den sammansatta varan är hållbarhetsmärkt, exempelvis med FSC, EU Ecolabel eller OEKO-TEX®. Leverantören ska kunna ge mer detaljerad information om vilka delar eller variationer som är hållbarhetsmärka vid begäran.

Orange markering eller symbol

Klimatberäknad produkt – Produkt med dokumenterad miljövarudeklaration (EPD) enligt ISO 14025.

Lila markering eller symbol

Produkt med återvunnet eller förnybart material (enligt definitionerna i ISO 14021). Leverantören ska kunna ge information om andel (%) återvunnet och/eller förnybart (biobaserat) vid begäran. Märkning av återvinningsbart material utgår.

Blå markering eller symbol

Demonterbar produkt – Produkt som är demonterbar till olika komponenter och beståndsdelar som i första hand möjliggör återbruk och i andra hand materialåtervinning när produkten nått sin fulla livslängd. Produkten ska vara designad för renovering, det vill säga att det ska vara enkelt att reparera och byta ut moduler, komponenter och beståndsdelar som slits över tid. Exempelvis ska ytskikt, som bordsskivor, textil och stoppning kunna tas isär, avlägsnas och ersättas med hjälp av vanligt förekommande manuella verktyg, ej specialverktyg. Enklare reparationer och utbytesarbeten ska kunna utföras av en lekman. Om det krävs fackmanakunskap för mer avancerade arbeten ska det framgå av anvisningarna som leverantören ska kunna ge vid begäran. Anvisningarna ska innehålla en sprängskiss, steg för steg beskrivning inklusive vilka verktyg som krävs samt hur möbelns ingående delar bör källsorteras.

Next level seating

Ascent is a seating system that elevates public space furniture to new heights.

The seatings was created in consultation with architects and planners to create a flexible, modular system that could change and adapt as its surroundings evolve. Designed with placemaking in mind, Ascent's soft contours, smooth textures, and sustainable wood make public space interiors warmer and more welcoming.

Strong focal points

The Leaf Lamp system provides ambient lighting and acoustic solutions for a wide range of public interiors. The shade is crafted from class A-certified* sound-absorbing and flameproof felt designed to help balance acoustic levels.

With diffuse light, soft textures, and natural materials the lamps can provide focal points within large areas or form part of a placemaking strategy in public space.

Smart and sustainable

Our accessories series of dividers, planters and recycle bins are designed to fit our seating series Ascent and Nova C. They also work very well as stand-alone products. The accessories are kept as simple as possible with few materials and substances.

The products need minimum maintenance, and at the end of their life, the products can be easily recycled. None needs to be disassembled.

Planter

Accessories

Information	Article number	Image	Link to drawing	Weight	Description	Price
<p>Planters are water-tight and sold without a liner. Made of powder-coated steel. Planters are available in standard colours; matte black (RAL 9005), matte white (RAL 9010), graphite grey (RAL 7024) and cloud silver (US only). If a colour other than this is desired, we refer to the RAL powder coat chart.</p> <p>How to fill the planters: We recommend filling the whole planter with pumice gravel instead of soil. Pumice gravel will soak water all the way from the bottom and will accumulate a lot of water.</p> <p>Pumice gravel is different to Hydrograins, Hydrograins will not transport water all the way from the bottom - would need Mona Link irrigation system, ask your sales person for further information.</p> <p>An alternative to filling the planters is to place pots into the planter. If you have ordered standard deep planters the pots can be placed onto boxes or similar inside the planter. This solution needs more frequent watering but is more flexible when it comes to moving planters and to changing plants.</p> <p>When planting, do not use metal gardening equipment as this may damage the protecting layer of paint which could cause corrosion over the years.</p> <p>A setup fee applies for most customizations.</p>	A01B_5			25 kg	Planter Square, 159 L / 42 gal	11,900 kr

Repair and maintain

The possibility to repair a scratch or easily replace parts that may have been damaged are essential aspects of product longevity. Scratches can be touched up by local treatment with Rubio Monocoat Oil Plus 2C.

If you need to change any of your wood slats, it's easy to do. With consistent maintenance, our furniture can be kept like new over time and prolonging the furniture's lifespan.

The choice is yours

Legs and metal strips are made from steel, and wooden ribs are made from bent plywood with oak surface veneer. The metal parts are powder coated and the colours has zero chemicals on the SIN-list. We can provide almost any RAL colour for the metal parts.

All wooden parts are treated with an organic hard wax oil with 0% VOC and zero chemicals on the SIN-list. The hard wax oil is available in a wide range of colours. We provide 12 colours in our standard range but we can also provide a variation of custom colours.
